Tennis Courts Open: A note from Sausalito Parks & Rec

Dear Community Members,

As we slowly inch closer to life outside of quarantine, we are gradually hitting the un-pause button for life to resume.

It is with great pleasure to announce the opening of all our tennis and outdoor pickle ball courts! New county guidelines and rules are posted on the courts and are attached in this email. These guidelines are set to minimize the contact between players, lessening the chance of passing COVID-19 to each other. Please respect each other's personal space and follow standard tennis court usage rules. We will slowly transition and update the guidelines as new information is provided. [tennis_rules.pdf](#)

Unfortunately, the basketball and bocce courts, all indoor classes and programs, and the dog park are still closed. We will update everyone as things gradually open.

Currently we are running daily [virtual classes](#) via ZOOM and will be adding more classes each week. If there are other classes that interest you, please feel free to reach out. Our goal is to provide all our community members with the opportunity to explore a new craft, hobby, or exercise routine... even if it is from your living room.

[Shelter in Place Update - May 4-31](#)

The general message remains the same: we need to remain at home, sheltering in place, except for essential trips (for example, to the grocery store or pharmacy) or essential business. When we are outside our homes for these activities, or to take a walk in our own neighborhood for a bit of fresh air and exercise, we must continue to wear a face covering like a bandanna, scarf, or cloth mask.

That said, there are a few areas where the new Order relaxes a bit. Construction activities are able to resume, with specific requirements and restrictions. Certain outdoor businesses can operate again, including nurseries, landscapers, and gardeners. Some recreation activities are now permitted, again, with specific rules.

If you'd like to know more, please visit [the Marin Health & Human Services COVID-19 website](#) where you can find the full Order and an executive summary, as well as related documents on the closure of parks, short-term rentals, face coverings, and the Marin Recovers Industry Advisors initiative. The [FAQs website](#) is also being updated to reflect common questions about the new SIP Order.

DIAL-IN CHINA: THE WORLD'S NEXT PREMIER SUPERPOWER?

China's rise and the United State's relative decline on the world stage has led to a tense and complicated relationship between the two. China is determined to restore the power and prestige it held before the 19th century, while the US is desperate to maintain its superpower status and image as the ideal society. The US and China have worked together in the past with mutual gain and respect, but a major geopolitical contest that was launched by the Trump administration could derail either country's plans for primacy. Join Ambassador Kishore Mahbubani for a discussion on why this geopolitical contest is a lose-lose situation for China and the US, especially in light of the COVID-19 pandemic and global warming.
